

BIOCLEAN-R™

HOOD

Reusable

STH002

About

The BioClean-R™ Hood is specifically designed and manufactured from lightweight, non-linting 100% monofilament polyester with a carbon grid woven within to provide antistatic properties. Suitable for use in either a sterile or non-sterile cleanroom environment. The STH002 Hood features a stud fastening front, and vertical and horizontal rear stud fastenings to ensure a comfortable fit.
